

# WAKE UP! PROTECT THE HONOUR OF ISLAM

The war against Palestine transcends mere politics; it is a profound clash of faith. Zionism (Jewish nationalism) views Islam as a formidable threat to its ambitions and relentless expansion. The animosity towards Muslims is deeply rooted in the historical defeats that Jews experienced in conflicts with Muslim forces during the early period of Islam.

Our acquiescence to deceitful leaders and our failure to embrace jihad have granted our adversaries the power to demean and oppress us within our own territories.

To reclaim our dignity and honour, we must take a decisive step: a return to the Almighty and His divine teachings. The foes of Islam tremble at the thought of true believers rising.
