Vulnerability Assessment and Penetration Testing Authorisation

The purpose of this memo is to grant authorisation to conduct a penetration test against Sayches.com (the "Website"). This penetration test is an integral part of the process of making sure that the Website is protected adequately against likely attacks.

To that end, Mohab Gabber (the "Tester") has permission to conduct a penetration test on the Website to find vulnerabilities. Actions performed by the Tester include and are limited to the following:

1. This authorisation shall be in effect from November 26, 2021, to December 2, 2021.
2. The Tester will use tools identified as leading industry practices to measure the vulnerabilities associated with various configurations.
3. The Tester shall take reasonable precautions to limit the acquisition of sensitive or/and private data after a successful exploit, e.g., review, recording, editing, or/and capturing the Website data.

This permission is granted for November 25, 2021.

Sincerely,

Chief Executive of Sayches Ltd
